

FOR IMMEDIATE RELEASE

Vertex Recognized in Built In's Esteemed 2025 Best Places to Work Awards

KING OF PRUSSIA, Pa., January 9, 2025 — [Vertex, Inc.](#) (NASDAQ:VERX) (“Vertex” or the “Company”), a global provider of tax technology solutions, was recognized on [Built In's 50 Best Remote Large Places to Work](#) and [100 Best Remote Places to Work](#) lists. This annual awards program recognizes companies of all sizes, from startups to enterprises, celebrating remote-first employers and those in large tech markets across the U.S.

“What an incredible honor to be recognized by Built In – this award validates our commitment to fostering an exceptional global workplace that prioritizes innovation, inclusivity and employee well-being,” said Ann Hollins, Chief People Officer at Vertex. “By embracing a remote-first culture and investing in our people, we're building an environment where our team members are able to thrive and maximize their potential.”

Built In determines the winners of Best Places to Work based on an algorithm, using company data about compensation and benefits. To reflect the benefits candidates are searching for more frequently on Built In, the program also weighs criteria like remote and flexible work opportunities, programs for DEI and other people-first cultural offerings. At Vertex, these include programs such as Business Resource Groups (BRGs), which foster community and belonging, and initiatives such as the Global Day of Service, allowing employees across all work environments to connect through shared purpose and give back to their communities.

“Being recognized as a Best Place to Work is a testament to these companies' commitment to building a workplace where individuals and innovation thrive,” says Built In CEO and Founder, Maria Christopoulos Katris. “At Built In, we understand that great companies are powered by great teams, and this achievement showcases their dedication to fostering a culture of growth, inclusivity, and excellence. Congratulations on this well-deserved honor.”
